Approved:

Vicki Snitzler, Superintendent

In accordance with regulations and the delegated authority provided in Title 36, Code of Federal Regulations ("36 CFR"), Chapter 1, Parts 1-7, authorized by Title 16 United States Code, Section 3, the following regulatory provisions are established for the proper management, protection, government and public use of those portions of Oregon Caves National Monument under the jurisdiction of the National Park Service. Unless otherwise stated, these regulatory provisions apply in addition to the requirements contained in 36 CFR, Chapter 1, Parts 1-7.

I. 36 CFR §1.5 – VISITING HOURS, PUBLIC USE LIMITS, CLOSURES, AND AREA DESIGNATIONS FOR SPECIFIC USE OR ACTIVITIES

(a)(1) The following visiting hours and public use limits are established for all or for the listed portions of the park, and the following closures are established for all or a portion of the park to all public use or to a certain use or activity:

Visiting Hours:

Monument Grounds: Year-round, 24 hours a day;
Cave Tours: Mid March to late November.
No less than 10 a.m. to 4 p.m. daily.

Public Use Limits:

- (a)(1) a. With the exception of regular trips into Oregon Caves under the guidance or supervision of employees or contractors of the National Park Service, no person shall enter any cave or undeveloped part or passage of any cave without a permit.
- b. The Superintendent may issue written permits for cave entry without escort to persons engaged in scientific or educational investigations under guidelines specified in the Resource Management Plan.
- c. In order to enter the cave on a regular public tour, children under the age of 12 years must be at least 42 inches in height and demonstrate that they are capable of negotiating a set of test stairs designed to approximate the maximum stair riser height inside the cave. Special accommodation will be made for individuals who cannot meet this requirement due to a genetic or other physiologic factor that limits physical growth.

- d. Large trucks, vans or buses in excess of 15-passenger capacity, motorhomes or other large recreational vehicles, and travel trailers are prohibited beyond the main (lower) parking lot with the exception of those commercial vehicles delivering equipment or supplies to the Chalet or Chateau.

Closures:

- a. All Caves within the boundary of Oregon Caves National Monument with the exception of Oregon Cave are closed to the public.

The Superintendent has determined that White Nose Syndrome is a threat to the cave bats of Oregon Caves National Monument, and every effort should be made to prevent or slow its spread to the park. The Superintendent has determined the closure is the best available method to meet the National Park Service mission to conserve the wildlife in the parks for the enjoyment of future generations.

- b. During periods of ice, snow, or other conditions resulting in hazardous motor vehicle travel, the Superintendent may close all or a portion of the Monument's road system to motor vehicle use.

Closures would be deemed necessary for employee and visitor safety during hazardous road conditions.

- c. During periods of high winds or periods of heavy ice, snow or other hazardous conditions, the Superintendent may close trails including the cave exit and the "110 exit" trails.

Closures would be deemed necessary for employee and visitor safety during hazardous trail conditions.

- d. All areas other than developed areas and the cave tour are subject to closure due to extreme fire danger.

Closures would be deemed necessary for employee and visitor safety during extreme fire danger, and aid in the prevention of wildland fires.

- e. Camping is prohibited in any form throughout the Monument. The prohibition on camping includes occupancy of a vehicle within the Monument for a period of more than two hours between the hours of 10:00 p.m. and 6:00 a.m.

Sufficient public lands exist outside park boundaries for camping. There are no developed or designated campsites with the boundaries of Oregon Caves National Monument. Unauthorized overnight use results in sanitation problems, resource damage, illegal campfires, and user conflicts.

(a)(2) The following areas have been designated for a specific use or activity, under the conditions and/or restrictions as noted:

NONE

The following restrictions and/or conditions are in effect for the specific uses or activities noted:

- a. Since service animals cannot safely perform assistance functions in the cave due to irregular low ceilings, and steep, open or spiral staircases, no animals, including service animals, are permitted on a guided tour. In no instances shall animals be permitted to accompany individuals into the cave in the capacity of a companion or emotional support animal. Special arrangements can be made with the National Park Service to provide cave access for visitors covered by the Americans with Disabilities Act. All arrangements are subject to visitor safety and resource protection considerations.
- b. Consumption of all food products, including gum, and all beverages is prohibited within any cave.
- c. The use of a cane, staff or other walking assistance device on a tour must meet all safety considerations and be approved by the Superintendent or designee.
- d. Tripods are not permitted on the public cave tour but may be approved as an element of a Special Use Permit.

(a)(3) The following restrictions, limits, closures, designations, conditions, or visiting hour restrictions imposed under §§(a)(1) or (2) have been terminated:

NONE

II. 36 CFR §1.6 – ACTIVITIES THAT REQUIRE A PERMIT

(f) The following is a compilation of those activities for which a permit from the superintendent is required:

- §1.5(d)

- §5.1 Advertisements - (Display, posting or distribution.)
- §5.2(b) Sale of intoxicants in certain park areas

- §5.3 Engaging in or soliciting any business (requires a permit, contract or other written agreement with the United States, or must be pursuant to special regulations).
- §5.4(a) Commercial transportation of passengers by motor vehicles within specific parks. (See chapter for applicable parks.)
- §5.5(a) Commercial filming of motion pictures or television involving the use of professional casts, settings or crews, other than bona fide newsreel or news television
 - (b) Still photography of vehicles, or other articles of commerce or models for the purpose of commercial advertising.
- §5.6(c) Use of commercial vehicles on park area roads (The superintendent shall issue a permit to access private lands within or adjacent to the park when access is otherwise not available)
- §5.7 Construction of buildings, facilities, trails, roads, boat docks, path, structure, etc.
- §5.10(a) Operation of eating, drinking, or lodging establishments in certain park areas (see chapter for detail)
- §6.9(a) Operation of a solid waste disposal site
- Part 7 Special Regulations

III. **GENERAL REGULATIONS**

NOTE: Each of the following underlined sections include language (in the CFR) that authorizes the superintendent to designate areas or sites for certain activities or uses; set terms and/or conditions for activities or uses; require a permit; set procedures, or a combination thereof. Since the authority to exercise discretion is built-in, a written determination in each case is not required, except when specifically required such as in §2.1(c)(1), (gathering of berries, etc., for personal use).

36 CFR §2.1 – PRESERVATION OF NATURAL, CULTURAL AND ARCHEOLOGICAL RESOURCES
